

NCC report for Walsoken Parish Council

It has been a crazy Month with lots of meetings re my position as Chairman of the Adult social services and public health select committee. The first of which is next week.

I have managed to meet up again with the highways team at the depot and am scheduled for a monthly catch up and to be made aware of any upcoming works. I will let the clerk know as and when I find out anything.

I have been digging about the once upon a time proposed roundabout at the staggered junction at the A47 and the Broadend Road where you take your life into your hands.

I'll update as and when I can find any more out about it. It is on my radar.

I have been making a lot of noise re the recycling issues at the Wisbech depot, and I can confirm that the leader is in talks with the leader at Cambs council and we are trying to work out a solution.

It would seem to be down to costs, as always.

Please all feel free to contact me individually or through the clerk re any issue that you are aware of and need to find a solution to.

I will do what I can to help.

Tina Kiddell County Councillor Marshland South Division.
